

AI Assistant Implant

1,000,000 cr; 4 week recovery period

BioResearch's New AI Assistant

Technology recently discovered in The Triangle has made BioResearch the vanguard in personal AI assistant technology. What has previously been the privilege only a few dozen BioResearch executives and a few others is now available to anyone who wants to increase their quality of life by orders of magnitude.

Satisfied customers included Willis J.F. Baker and Lance Worthington, III.

Disclaimer: Due to its classification as an elective cybernetic enhancement, its use is prohibited by most polities outside The Triangle.
